Forecast For East Midlands
Issued by Met Office Exeter
at 0400 on Saturday 04 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Early rain clearing, then becoming cloudy with scattered showers. Cold.

Today:
Early outbreaks of rain soon clearing. Then temporarily sunny spells before cloudy conditions with scattered sometimes heavy showers, or longer spells of rain, arrive. These may be wintry over the Peak District. Becoming windy, especially across the Peak District. Cold. Maximum temperature 6 deg C (43 deg F).

Tonight:
Outbreaks of rain at first, but overnight the rain may become heavy and prolonged for many areas, falling as sleet or snow over the Peak District. Windy. Minimum temperature -1 deg C (30 deg F).

Sunday:
Areas of heavy rain are likely at first, with hill sleet or snow, these gradually dying away to leave cloudy conditions with scattered coastal showers. Winds slowly easing. Feeling cold. Maximum temperature 8 deg C (46 deg F).

Outlook for Monday to Wednesday:
Monday or Tuesday windy at times with bands of rain and strong winds tracking east, preceded by some snow. Drier Wednesday but potentially very windy, Rather cold, some overnight frosts.
